PROFESSIONAL SUMMARY

I am Hamzah Taofeeq a.k.a ifedollars, a skilled frontend developer, a highly motivated and driven Vuejs developer with a passion for building Web applications. Recently developed a fully functional **E-commerce platform**, showcasing skills in real-time data handling, API integration, and modern UI design. Eager to contribute to professional development teams and grow as a software engineer.

🛠️ Technical Skills

Languages & Frameworks

- HTML5, CSS3, JavaScript

- Tailwind CSS

- Vue.js

Tools & Technologies

- REST APIs

- Git, GitHub, GitLab

- Vue Router

- Vue DevTools

- Pinia, Vuex

- Vite

🚀 Projects

🛒 E-commerce Web Application

- Developed a fully responsive E-commerce platform using **Vue.js**, **Tailwind CSS**, and **HTML**.

- Implemented key features including **search**, **add-to-cart**, **item deletion**, and **user alerts**.

- Managed dynamic UI updates using **in-memory state** and integrated **Pinia** for scalable state management.

- Designed layout responsiveness via **media queries**, ensuring seamless experience across all devices.

- 🔗 Live Project | 💻 GitHub Repo

☁️ Weather Web Application

- Built a **real-time weather app** using **Vue.js**, **Tailwind CSS**, and **OpenWeather API**.

- Enabled search-based weather queries and integrated **geolocation-based** weather info.

- Focused on a clean UI with accurate, real-time forecasts.

- 🔗 Live Project | 💻 GitHub Repo

🎬 Movie Web Application

- Developed a dynamic movie browser using **Vue.js** and **TMDB API**.

- Users can **browse**, **search**, and **select** movies through an interactive and responsive interface.

- Used API data to populate movie posters, titles, and details.

- 🔗 Live Project | 💻 GitHub Repo

🔐 User Authentication System (Sign In / Sign Up)

- Developed a full authentication system using **Supabase** with Vue.js and Tailwind CSS.

- Implemented user registration (Sign Up) and login (Sign In) with secure real-time backend authentication.

- Managed user sessions and error handling for a seamless user experience.

- Practiced secure API key management by working with environment variables (.env files).
